HARD TIMES HIT THE AUTO INDUSTRY (Length: 12:23)

One of the biggest victims of the global credit crunch is the auto industry. Consumer demand is falling, factories are closing, and the once mighty industry is now asking for government bailouts. In this *News in Review* story we'll look at the state of the Canadian auto industry and what is being done to try to save it.

THE FUTURE OF THE OIL SANDS (Length: 13:49)

Canada's oil sands industry is a big part of our economy. But in recent months it has come under increased scrutiny because of its environmental impact. And most of that scrutiny is coming from our biggest customer, the United States. In this *News in Review* story we'll look at the problem and what the industry plans to do about it.

WHITE DRAGONS: THE KILLER AVALANCHES (Length: 13:14)

It has been a deadly avalanche season in Canada. By the end of February, 16 people had been killed, most of them in British Columbia. Why are so many people dying? In this *News in Review* story we'll look at why the so-called white dragons are so dangerous. We'll also examine what avalanche-control experts are doing to try to prevent them.

THE FLIGHT OF THE SILVER DART (Length: 18:55)

Canada has a long and proud aviation history that began 100 years ago with the flight of the *Silver Dart*. On February 23, 1909, J.A.D. McCurdy piloted Canada's first powered airplane across a frozen lake in Nova Scotia. In this *News in Review* story we'll look at how a group of aviation enthusiasts brought history alive by recreating that famous first flight.
